

3 Sublingual Nitroglycerine: One spray

4 Regular medication: Aspirin, Micardis, Sotalol

Technical Quality & technical issues: Good quality

Calcium score (AGATSTON):0

Volume:0

CORONARY ARTERIES:

Dominance: Right.

The coronary arterial tree it has normal anatomical configuration without significant stenosis.

The LAD has a short segment of myocardial bridging involving the midsegment without significant stenosis.

There is no evidence of coronary atherosclerotic disease.

CARDIAC FINDINGS:

Cardiac Chambers: Within normal limits.

Ejection Fraction:73%.

Cardiac Valves: Within normal limits.

Pericardium: Within normal limits.

Aortic root: No abnormality detected..

Pulmonary Trunk: No abnormality detected.

Pulmonary arteries: No abnormality detected..

Left atrium: No abnormality detected..

LIMITED CHEST CT FINDINGS:

Lung parenchyma: The lung bases are clear.

Pleural spaces: No abnormality detected.

Chest wall: No abnormalities demonstrated.

COMMENT & IMPRESSION:

The coronary arterial tree has normal configuration without features to

suggest atherosclerotic disease.

A calcium score was also noted to be zero.

Thank you for referring this patient.
